

B.A.S. Technology Management

Campuses
01. Online

Visit Department Webpage: <http://www.yuma.nau.edu/classes/TechMGT.aspx>

Our Technology Management program is designed to provide you with a general knowledge of management, organizational and policy issues that impact the field of IT management. This program is intended for those who seek opportunities to advance their career in and expand their knowledge of leadership and technology issues in the IT arena. To be admitted to this program, you must have completed an Associate in Applied Science degree (AAS) in a computer or information technology related field. Click here for a partial listing. Please note that this is a partial listing of applicable AAS degrees from Arizona Community Colleges. Students who earned an AAS in a computer or technology related field from a school outside of Arizona, or those who earned a similar AAS from an Arizona school not listed below can request a review of their credentials. Please contact online.advising@nau.edu for more information.

How To Apply

There is no specific departmental application for admission to this program; simply apply to NAU as a degree-seeking undergraduate: <http://www4.nau.edu/uadmissions/admis/apply.htm>

A Milestone is required before a student can enroll in any BAS Technology Management Specialization courses. This Milestone can be applied after the students credentials are evaluated and it is determined that the student has earned an appropriate AAS degree (see Degree Overview). Please contact an advisor as early as possible for any questions regarding this process.
